

Agility Venue Information

Accepted Organizations:

- AKC
- CKC
- NADAC
- UKC
- USDAA
- CPE

Venue Specific Rules:

- A qualifying score (as defined by the organization) is required for points to count.
- All classes which lead to a title are accepted.
- Maximum number of competitions is SIX (6) for the Annual and Most Improved awards, unlimited for the Achievement award.

Point Schedule:

1. Normalize Score (so that organizations with different maximum scoring can compete on equal footing):
 - a. Score earned
 - b. Divide by the maximum score possible
 - c. Multiply by 100
2. Take the result from step one and add one point for each full second under standard course time.
3. Take the result from step two and add the number of dogs beaten in the class (i.e. if you earn first in a class of 15 dogs, add 14 points, if you are 10th in a class of 15, add 5 points.)
4. Take the result from step three and multiply by level multiplier: **0.70** for Novice/starters (1st level), OR **0.85** for open/advanced (2nd level) OR **1.0** for excellent/elite/masters (3rd level).

This total is now the points earned for that run.
